It’s time to nominate an outstanding AMA youth member for the

**Academy of Model Aeronautics**

**Youth Leadership Award**

Information and Application

Spreading the love and fun of aeromodeling is vital to its survival. That is why AMA would like to recognize Youth members who do just this. The national Youth Leadership Award will be given to one Youth member each year who shares the joy of the hobby with his or her community through volunteering at club fly-ins, encouraging his or her peers to get involved in aeromodeling, or helping other club members improve their piloting skills.

It takes one member or club to nominate a deserving individual. The award winner will be determined on two levels. A nominee from each district will be selected by the respective district vice president, and then a committee will select the national winner from the district winners. The district winners will be announced in April of each year. Each district winner will receive a certificate of recognition.

The national recipient will receive a sponsorship to Camp AMA for the year he or she wins, provided the person is qualified and able to attend. The winner will also receive a plaque and his or her name will be added to the perpetual plaque that will be on display in the National Model Aviation Museum in Muncie, Indiana.

This is an opportunity for you to do something to recognize a Youth member who goes out of his or her way to make model aviation better for all of us.

**All applications are due by February 15; district winners will be announced in April.**

**Please submit the application electronically to education@modelaircraft.org at AMA Headquarters.**
